DETAILED ACTION

Current Status

Claims 1-14 are pending in the application.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Verni on 8/23/05.

The Application has been amended as follows:

Claims 15-17 are cancelled.

Allowed Claims

Claims 1-14 are pending in the application.

Reason For Allowance

The following is an Examiner's statement of reasons for allowance: Applicants claim quinoxaline derivatives of general formula 1 and their compositions; wherein all the variables are as defined in the claims;

formula I

The compound was neither found to be obvious nor anticipated by the prior art of record.

The obviousness-type double patenting rejection set forth in claims 1-4 and 8-11 of the previous Office Action of November 18, 2004 is withdrawn in response to applicants' terminal disclaimer.

The 102 and 103 rejections have been overcome by applicants' amendments. It is now clear that when L is a bond, R⁷ is not hydrogen.

A search of the prior art failed to uncover any reference that teaches or motivates one of ordinary skill to disclose the presently claimed compounds and their compositions.

All claims (1-14) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
